

Decorating Pencil tops

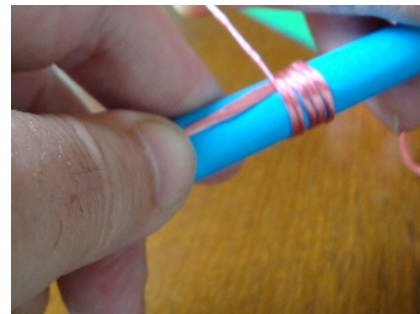

Make writing interesting by decorating your pencil tops. A SHIVA Charity resources training lesson using a pencil, coloured paper, string, craft punch (to make coloured shapes), drinking straws, beads and glue.

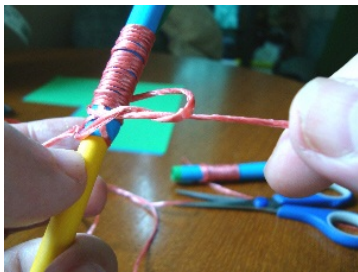

Cut two pieces of coloured paper 3 by 4 inches

Roll tightly, with the pencil top about half way up the tube of paper.

Wind the string tightly back over itself. Make sure there is plenty of string remaining at the ends

Tie two knots so the ends of string are in two different places.

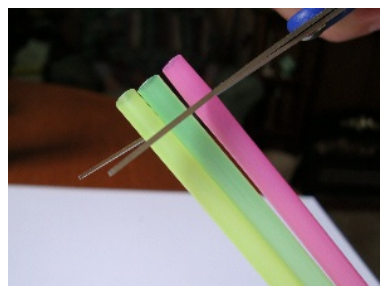

Insert the scissors and cut in thin strips towards the pencil

Open the strips out

Glue coloured paper shapes onto the strips

Make some "beads" using drinking straws

Add plastic beads and tie knots to the ends.
